Ce livre retrace un épisode de la lutte qui oppose les extraterrestres aux extra-temporels, avec la planète Terre comme enjeu. Les extraterrestres connaissent le secret des voyages dans l'espace grâce aux "portes de l'espace" tandis que les extra-temporels connaissent le secret des voyages dans le temps grâce aux "portes du temps". Chacun est désireux de voler son secret à l'autre et de prendre ainsi un avantage substantiel dans l'affrontement sans merci que se livrent les deux civilisations. Grâce aux "portes de l'espace" les extraterrestres sont venus explorer la Terre depuis des temps lointains qui remontent à plus de 3.000 ans av. J-C. Ils ont visité notamment le territoire de l'ancienne Egypte et ont contribué largement à créer les fondements et icônes de la mythologie

égyptienne. Grâce aux "portes du temps" les extra-temporels ont pu observer leurs ennemis. Ils ont appris que le but des envahisseurs était de s'approprier les ressources et les populations de la planète, mettant ainsi en danger le futur de l'humanité dont ils sont les gardiens. Le conflit entre les protagonistes prend une nouvelle dimension lorsqu'un ancien papyrus, provenant de la pyramide de Djoser à Sakkarah, est retrouvé dans les cendres de l'ancienne bibliothèque d'Alexandrie, en Egypte. John Perry, journaliste de la célèbre revue « Nature », va être mêlé, malgré lui, à une phase aigüe de cette guerre qui mettra la planète Terre au bord du chaos ....
