"Reseña del editor **The image of modern corporations has been shaped by a focus on profits over people and the environment, but this approach to capitalism is no longer viable. We are at an inflection point where business must take the lead in healing the crises of our time. *The Healing Organization* shows how corporations can become healing forces.** Conscious Capitalism pioneer Raj Sisodia and organizational

innovation expert Michael J. Gelb were inspired to write *The Healing Organization* because of the epidemic of unnecessary suffering connected with business, including the destruction of the environment; increasing numbers living paycheck-to-paycheck and barely surviving (despite working full-time or even multiple jobs); rising rates of depression and stress leading to chronic health problems; and because the enmity and dividedness between those who champion unfettered capitalism and those who advocate socialism is exacerbating rather than solving our problems. Based on extensive in-depth interviews and inspiring case studies, the authors show how companies such as Shake Shack, Hyatt, KIND Healthy Snacks, Eileen Fisher, H-E-B, FIFCO, Jaipur Rugs and DTE Energy are healing their employees, customers, communities and other stakeholders. They represent a diverse sampling of industries and geographies, but they all have significant elements in common, besides being profitable enterprises: Their employees love coming to work. They have passionately loyal customers. They make a significant positive difference to the communities they serve. They preserve and restore the ecosystems in which they operate. In a world that urgently needs healing on many levels, this is a movement whose time has come. This book shows how it can be done, how it is being done, and how you can begin to do it too. Biografía del autor Raj Sisodia is the FW Olin Distinguished Professor of Global Business and Whole Foods Market Research Scholar in Conscious Capitalism at Babson College. He is also Co-Founder and Co-Chairman of Conscious Capitalism Inc. Raj has published ten books, including *Conscious Capitalism: Liberating the Heroic Spirit of Business*, *Firms of Endearment: How World Class Companies Profit from Passion and Purpose*, and *Everybody Matters*. Michael J. Gelb is the world's leading authority on the application of genius thinking to personal and organizational development, and the author of 16 books, including the bestseller *How to Think Like Leonardo da Vinci*. A pioneer in the fields of creative thinking, innovation literacy and conscious leadership, he helps organizations around the world develop more creative, innovative and conscious cultures."
