**Elena has found the power in her voice--now she must decide how to use it** Finally accepted as a mage, Elena struggles with her commonborn roots. And when disaster strikes the kingdom, she can't shrug off the death toll as the mageborn have always done. In desperation she turns to an unlikely source of assistance--Prince Lucas. But just as she begins to master her powers, she finds herself the pawn of stronger forces. With everything she's struggled for almost within her grasp, she must decide what--and who--is worth sacrificing to come into her full power and take her place among the mages.
