RTS is a to the point, self-help guide on recovering from
religion. Unlike any other book of its kind, RTS was written
to rattle your conscience, and awaken your logic. Being
written by someone who was born deep into religion gives it a
personal connection and a realistic view on what someone goes
through after leaving their faith. Most people, who were
blessed with never having to be held back by belief would

never understand the inner struggle one goes through in finding meaning in this world after being deceived their entire life. Too long have you been brainwashed and beguiled by those that would rob you of living life while taking you on a never ending exodus to some false promised land. This is why this book was written short, to the point, and was designed to not waste your time. So, if you have gone through this terrible transition, and need help through your time of trauma, then this is the book for you..
