A chance meeting with an old classmate leads Ryan Laughlin, a dedicated young physician, to an ancient Roman spa in a medieval village of Italy where researchers are studying two remarkable events that could change the course of history—a new technology that claims to measure the essence of life itself, the human spirit, and the final Dead Sea Scroll which was recently discovered in the West Bank. *The Last Scroll* reveals universal truths about the nature of life through Seven Blessing but warns of Seven Plagues of the Beast that are emerging this century causing alarm and protests around the world. While visiting the spa to learn these secrets and enjoy the food, wine, and culture of Italy, Ryan finds himself the target of a killer who claims the project is heresy and will do anything to stop it. In a deadly race through ancient Italy, he is desperately trying to save the only woman he has loved since the death of his wife. What insight and power lies within the fragmented pieces of the Last Scroll?.
