You are about to become an apprentice in human nature. First. The Laws will work to transform you into a calmer and more strategic observer of people, helping to free you from all the emotional drama that needlessly drains you. Second. The Laws will make you a master interpreter of the cues that people continually emit, giving you a much greater ability to judge their character. Third. The Laws will empower you to take on and out-think the toxic types who inevitably cross your path. Fourth. The Laws will teach you the true levers for motivating and influencing people. Fifth. The Laws will give you the power to alter your own negative patterns..

Whether or not Greene's books should be found in the self-help shelves is a moot point. That said, The Laws of Human Nature carries within it that motivational undertone.

Natural law

May 5th, 2020 - Natural law (Latin: *ius naturale*, *lex naturalis*) is law as seen as being independent of and pre-existent to the positive law of any given political order, society, or nation-state. Such genesis is seen as determined by nature, whether that reflects creation, evolution, or random chance, and a notional law of nature treated as objective fact that is universally applicable. That is, it exists.
