"Críticas There are many summer workbooks out there, but we believe Summer Fit Activities Workbooks have the most to offer. While they include activities for all subjects, it's the fitness and nutrition component that continues to interest our school administrators. The obesity rate among young children continues to rise, and with these books, children learn to incorporate daily habits that will lead them to live a healthy lifestyle. Healthy children are better learners and miss less days of school. With Summer Fit, students are engaged in the short but effective activities without being overwhelmed by a huge oversized book. Our customers and school administrators love Summer Fit! -- Nancy, store owner for educational retailer Learning Gizmos `As a mom and a teacher of 22 years, I appreciate the comprehensive curriculum of the Summer Fit series. We have used every one of the books. My kids look forward to their newest Summer Fit books each summer! Complete with physical exercises, math, reading, science and more, this program keeps us engaged and active all summer long. The kids don't even think of it as school! If you're not a Summer Fit family yet, do it! Fantastic, well-written and FUN! -- Michele C., M. Ed Summer Fit books are a definite win in our family! My boys look forward to the variety of activities in the book and I appreciate the skills-based practice. The graphics are colorful and engaging without being too busy, and the exercise log has been a motivator for everyone to get up and moving. I appreciate the core value pages where we get a chance to learn about a role model along with activity ideas to discuss the value and put it into action. -- Colleen T., Mother, Homeschooler Reseña del editor Summer Fit Activities Kindergarten - First Grade is an engaging workbook that helps children learn and grow over the summer. It contains three different foundation pieces for child success: academics, health, and ethics with the study of role models including Nelson Mandela, Abe Lincoln and Kartick Satyanarayan from Wildlife SOS. Summer Fit Activities makes learning fun with colorful illustrations, family activities, fitness logs and incentive calendars. Summer Fit is easy to use for parents, caregivers and grandparents to guide and follow along as their child?s progresses throughout the summer. Daily lessons in academics and fitness are designed with a self-motivating incentive contract calendar program to help encourage guide and reward children to complete their work. Summer Fit Activities uses an integrated approach to summer learning that includes all basic skills and focuses on non-cognitive and cognitive development. * Daily lessons in reading, writing, math, language arts, science and geography* Supports National Standards* Promotes Whole Child Learning* Daily Fitness Program* Handwriting Practice* Summer Reading Program* Healthy Eating and Nutrition Section* Builds Confidence, Self Esteem, Empathy and Leadership* Reviews and Previews Grade Levels* Weekly Core Values reinforce positive social skills and behavior* Free online resources extend summer learning experience Contraportada Help your child retain academic skills, build healthy habits and reinforce core values with the award-winning Summer Fit Activities workbook series. Research shows children forget up to 2 1/2 months' worth of academic skills they learn in school during summer vacation AND that daily fitness and play improve memory and learning. Summer Fit is self-motivating, fun and easy to use at home or on the road for family vacation. Start your child at the head of the class in the new school year! ACADEMICS: Based on national standards, each workbook is fully comprehensive and contains grade appropriate, curriculum-based activities in reading, writing, math, language arts, science and geography. FITNESS: Fitness logs, daily exercises in aerobic and strength, written instructions and online videos show proper exercise technique. VALUES: Character development and role model activities include child projects, parent talking points and reading lists.
